English Ivy and other invasive plants are overwhelming our Parks, Natural Areas and Open Spaces. Join other volunteers and learn how to remove English ivy from the forest floor and properly cut English Ivy vines that are smothering our trees. The City will have a limited number of small tools available for this event. Volunteers are asked to bring their own garden rakes, hand pruners, gloves, flat head screwdrivers, and handsaws. We recommend that you wear long-sleeved clothing. Light refreshments will be served.

Please show your support and join us at our upcoming events
